

## CAPABILITY STATEMENT

[www.BIRDCONTROLADVISORY.com](http://www.BIRDCONTROLADVISORY.com)

Founded in 2013, Bird Control Advisory is a Certified WBE & DBE specialty consulting firm located in the Metropolitan New York City area, serving clients globally. BCA is the project owner's resource for timely and quality information on proper implementation of pest bird mitigation and bird safe strategies. Based on the 17 years of experience of nationally recognized bird control expert and Principal Consultant, Heath Waldorf, BCA represents a marriage of the pest control industry and the architectural / engineering community. BCA is your commercially independent source for commercial & industrial bird mitigation projects and to those who provide such solutions. BCA adds to a deep and complete A/E team for construction or renovation of complex buildings and public spaces such as those found in and around New York City.

## PAST PERFORMANCE

### Disney's New York City Headquarters

2019-2020 Working for SOM

Bird Control Advisory addressed façade design with urban pest bird mitigation in mind as well as creating a building to comply with New York City Building code Local Law 15/20 for Bird-Safe facades.

### Newark Liberty International Airport, New York

2018-2019 Working for STV, Inc.

Bird Control Advisory integrated pest bird mitigation measures into the design and development of the new Terminal One at this New York City area airport.

### Kansas City International Airport

2019-2020 Working for SOM

Bird Control Advisory assisted in the design of Skidmore Owings & Merrill's terminal redevelopment project to protect the site from hoards of seasonal migratory birds.

### Denver International Airport

2013-2015 Working for Gensler

Performed a Birdproof by Design™ program preventing pest bird issues for Gensler's intermodal transit center & hotel tower as part of the DIA South Terminal Rehabilitation project.
